JCC Finance & Information

Report Contents

Reporting Forums:
This Finance Report is sent monthly to Welsh Government, and is an agenda item for the bi-monthly JCC meetings, CCLG (Collaborative Commissioning Leadership Group) meetings, PPF (Planning, Performance & Finance) meetings, and the monthly Finance Working Group meetings. In addition, the financial position is discussed at various other meetings with Health Boards, service providers and internally.

GIG CYMRU NHS WALES | Cyd-bwyllgor Comisiynu Joint Commissioning Committee

Background & Introduction

Financial Month

3

Annual Budget £'000	Budget to date £'000	Spend to date £'000	Variance to date £'000	Forecast Outturn £'000	Forecast Variance £'000
£1,265,040	£316,260	£314,947	(£1,313)	£1,264,553	(£487)

The reported position is based on the following:
The overall JCC financial position at Month 3 is an underspend of £1.3m, with a year-end forecast underspend variance of £0.5m.

The financial position is reported against the 2026/27 baselines following approval of the Annual Plan by the Joint Commissioning Committee on the 31st March 2026. The remit of the JCC is to deliver a plan for health boards within an overall financially balanced position. However, the composite individual positions are important and are dealt with in this financial report, together with consideration of corrective actions as the need arises. The JCC has agreed several strategic priorities and deep dives to progress over the coming financial year, with a focus on delivering commissioner efficiencies.

- NHS Wales Providers – reported spend and forecasts based on 2026/27 contract monitoring submissions.
- NHS England Providers – reported spend based mainly on 2026/27 contract monitoring submissions where available, with remainder based on the final 2025/26 outturn reported.
- Mental Health & IPC – reported spend based on individual patient placements and funding commitments.
- Please note that there is usually a lag in contract monitoring of 1-2 months due to data capture that affects Quarter 1's reporting. However, most of the significant overspends from last year have been funded within the new year Plan.

Budgets reflect the values agreed in the Plan, along with any subsequent allocations/agreements of funding. An important note is that as part of balancing the Plan, Welsh providers have been tasked with a 2% Savings target totalling £12m. It is expected that these savings targets will be achieved by year-end as they are now reflected within the LTA values. **At the point of this report, we have reached final LTA agreements with all Welsh providers, with the exception of one Health Board (Cardiff & Vale), which is expected shortly.**

Risks to the position (see page 8 for further detail):

A number of risks were identified in the Annual Plan for 2026/27, in addition to a number of service areas that reported notable overspends in 2025/26. As detailed within the plan for 2026/27, the agreed plan had a shortfall of £16m, which has been funded by Health Boards, but work to mitigate that value over the year will be ongoing.

Main risks include: Overall growth in-year- there is usually a lag in contract monitoring of 1-2 months due to data capture that affects Quarter 1's reporting. This could particularly affect NHS England providers, who are working to Department of Health targets and tariffs.

Opportunities include potential savings on approved commitments where spend has not yet commenced, and reductions of HPN costs by switching home care providers. A significant saving on the High Secure Mental Health contracting of £1.5m has been reflected into the position for this month.

Other	**(£23)**		**(£23)**
Other	(£23)		**(£23)**
Total	**£8,449**	**(£8,937)**	**(£488)**

The overall year-to-date position at Month 3 is **an underspend of £1.3m, with a year-end forecast of £0.5m.**

NHS Wales contracts - £0.6m net overspend:
Whilst the year-end total forecast variance is £0.6m across the total of this area, it is to be noted that there are material overspends and underspends within this, and some to-date positions have not been extrapolated on all lines. This is due to the individual contract monitoring returns from providers and local/JCC knowledge of previous trends and activity expectations. Forecasting techniques need to be improved across some service lines provided by Cardiff & Vale UHB, which is essential for the commissioning positions to have the necessary assurances.

Areas which did not attract funding in the 26/27 Annual Plan include Swansea Cardiology and the Velindre PRRT provision which is transferring to Velindre from NHS England.

NHS England - £2.4m overspend:
Whilst the English provider position nets to a £2.4m overspend, there are various overspends and underspends at specific providers, the largest of which are listed to the left. As each provider is risk-shared based on population usage, the North England overspends do flow mainly to Betsi Cadwaladr University Health Board.

Mental Health - (£1.8m) underspend:
This area is reported using individual patient placements, so can fluctuate due to low patient numbers. Overall there is an underspend across these areas based on patient forecasts of Adult Medium Secure and Eating Disorder patients. However, there is one very high cost CAMHS patient related to BCUHB, which has impacted their overall commissioner position.

Renal budgets - (£1m) underspend:
This area includes discretionary spend outside of the contracts with NHS Wales & NHS England providers (these positions are reported within NHSE & NHSW areas).

Savings:
The JCC has secured a substantial contract reduction with the main Mental Health High Secure provider of £1.5m. There are also potential savings on Strategic Plan Commitments and Prior year agreements, which have not commenced being spent - please see the Savings page.

Betsi Cadwaladr	£55,553	£13,888	£13,803	(£85)	£55,213	(£340)
Aneurin Bevan	£14,094	£3,523	£3,537	£14	£14,149	£56
Welsh Provider Total	**£949,885**	**£237,471**	**£236,744**	**(£727)**	**£950,520**	**£635**
				For ref: Total Welsh Provider prior year outturn (excl. WAST)	***£862,437***	

The **Welsh SLA** provider position at month 3 is a forecast **overspend of £0.6m.**

For Welsh contracts, the reported position is based on 2026/27 contract monitoring returns - for to-date and year end positions. Most of the financial issues identified from 2025/26 were funded in the 2026/27 Plan, with some funding currently held in Reserves pending assessment of current needs.

LTA Agreements:

Baseline contract values have been agreed across all Welsh providers. Discussions are going well between SBUHB, other Health Boards, and the JCC teams around achieving the agreed provider savings for 2026/27. **At the point of this report, we have reached final LTA agreements with all Welsh providers, with the exception of one Health Board (Cardiff & Vale), which is expected shortly.**

Whilst the year-end total forecast variance is £0.6m across all the NHS Wales providers, it is to be noted that there are material overspends and underspends within this, and some to-date positions have not been extrapolated on all lines. This is due to the individual contract monitoring returns from providers and local/JCC knowledge of previous trends and activity expectations. Forecasting techniques need to be improved across some service lines provided by Cardiff & Vale UHB, which is essential for the commissioning positions to have the necessary assurances.

The more material forecast variances for year-end within NHS Wales providers include:

- Cardiff – Transaortic Valve Implants (TAVI) - £2m overspend
- Cardiff – Paediatric Respiratory Equipment - £1m overspend
- Cardiff – Paediatric Gastroenterology - £0.7m overspend
- Cardiff – Cardiology (Specialised) - (£0.5m) underspent
- Cardiff – Neonatal Intensive Care (NICU) - (£1.3m) underspent
- Cardiff – Artificial Limbs and Appliances (ALAS) - (£0.8m) underspent
- Cardiff – Spinal Implants - (£0.8m) underspent
- Cardiff - International Subarachnoid Aneurysm Trial (ISAT) - (£0.7m) underspent
- Swansea Bay – Cardiology (Specialised) - £1m overspend
- Velindre - PRRT (main service transferred from Royal Free) - £400k overspent

Direct Running Costs	£10,082	£2,521	£2,540	£19	£10,158	£76
Renal	£3,374	£843	£856	£12	£3,328	(£46)
Releases	-	-	-	-	-	-
Savings		-	(£368)	(£368)	(£1,472)	(£1,472)
Total Other Providers	£315,155	£76,680	£76,093	(£586)	£314,033	(£1,122)

Direct Running Costs:

The **DRC position** for the NWJCC team at Month 3 reports a £0.1m overspend forecast for year-end.

Non Welsh SLAs:

The **Non Welsh SLA provider position** at Month 3 is a forecast **overspend of £2.4m.** The reported position is based primarily on 2026/27 contract monitoring data with 2025/26 contract monitoring data used when 2026/27 has not been available.

The largest overspends and underspends within the NHS England providers are listed below. As each provider is risk-shared based on population usage, the North England overspends flow mainly to Betsi Cadwaladr University Health Board:

- Alderhey - (£0.7m) underspent
- Christies - £1.2m overspent
- Manchester - £1m overspent
- Mersey & West Lancs - £0.8m overspent

Please note that there is a formal project in place around Referral Management into NHSE provision and pathways; this will be ongoing throughout the financial year.

Mental Health:

The **Mental Health position** at Month 3 is a forecast **underspend of £1.8m**. The contract savings of £1.5m on the High Secure spend have been reported on the Savings tab.

Overall there is an underspend across the Mental Health portfolio based on patient forecasts of Adult Medium Secure and Eating Disorder patients. However, there is one very high cost CAMHS patient related to BCUHB, which has impacted their overall commissioner position.

The Caswell unit provided through SBUHB remains restricted to JCC activity, and discussions will ensue around funding arrangements again for this financial year.

Individual Patient Commissioning (including IPFR):

The **IPC position** at Month 3 reports **a forecast overspend of £0.1m.** The reported position is based on individual patient funding commitments.

Whilst the IPC areas showed material financial pressures within 2025/26, these were largely funded in the 2026/27 JCC Plan. However, new NICE drugs coming on board (e.g. Burosumab) can be a significant cost pressure and the split of drugs/non drugs spend in this area will be split out in future months Finance reports.

Please note the JCC have requested a formal project into IPC spends and pathways; this will be ongoing throughout the financial year.

Savings

Total **Provider savings** of £12m were agreed as part of the 2026/27 Plan, reflecting 2% for NHS Wales providers. The JCC is working in collaboration with providers as to how they will achieve these savings, and most have allocated the savings to specific budget lines.

Commissioner Contribution

The financial plan includes £16m of additional Commissioner contribution. As part of the plan there is formal commitment to work collaboratively to identify how this can be reduced. In approving this plan, Members acknowledged both the scale of the challenge and the collective responsibility to mitigate this risk through strengthened delivery of the priorities, provider efficiency requirements, and commissioning-led savings & efficiency opportunities.

To address this there is a clear focus for the NWJCC to work collaboratively with Health Boards to urgently develop the 2026/27 priorities to maximise cost improvement efficiencies and savings to improve the additional financial requirement of £16.2m in year.

Current confirmed savings include the below. In addition, there are opportunities around the already committed funds which have not yet started being spent - please see the Risks/Opportunities page for more details.

- The JCC has secured a substantial contract reduction with the main Mental Health High Secure provider, and that £1.5m underspend has been reported against the Savings.

Value, efficiency and Sustainability Programme

The Sustainability & Efficiency Programme supports the Joint Commissioning Committee (JCC) in responding to increasing financial pressures, rising delivery expectations, and the requirement to improve long-term financial sustainability across commissioned services. The programme will provide a coordinated and structured approach to identifying, prioritising, tracking, and delivering efficiency and savings opportunities across both the JCC and provider organisations. It will bring together financial, commissioning, operational, and service considerations to ensure opportunities are assessed transparently, aligned to strategic priorities, and delivered in a sustainable way without compromising service quality or outcomes. The programme will also act as a key mechanism for supporting delivery of the Annual Plan and addressing the identified financial gap through both in-year and future-year efficiency opportunities.

There will be a key focus on the monitoring of savings potential.

Risks & Opportunities

Financial Month

3

RISKS

A number of risks were identified in the Annual Plan for 2026/27, in addition to a number of service areas that reported notable overspends in 2025/26. As detailed within the plan for 2026/27, the agreed plan had a shortfall of £16m, which has been funded by Health Boards, but work to mitigate that value over the year will be ongoing.

Main risks include:

- Overall growth in-year- there is usually a lag in contract monitoring of 1-2 months due to data capture that affects Quarter 1's reporting. This could particularly affect NHS England providers, who are working to Department of Health targets and tariffs.

At this stage in the year, we are working to implement our plan and as such, the identification of risks will be part of this.

OPPORTUNITIES

Opportunities are being explored across various areas going forward, including product procurement/ medicines management.

A significant saving on the High Secure Mental Health contracting of £1.5m has been reflected into the position for this month.

Other Financial Opportunities include:

- Reductions of HPN costs by switching home care providers.
- Potential savings in relation to Commitments where spend has not yet commenced:
  - £2.4m forecast to commence later this year
  - £4.3m currently being assessed as a potential opportunity for slippage (to be reviewed in September)
  - £1.3m available to release back to commissioners on the basis of delated implementation on the schemes themselves (not reported within the position).

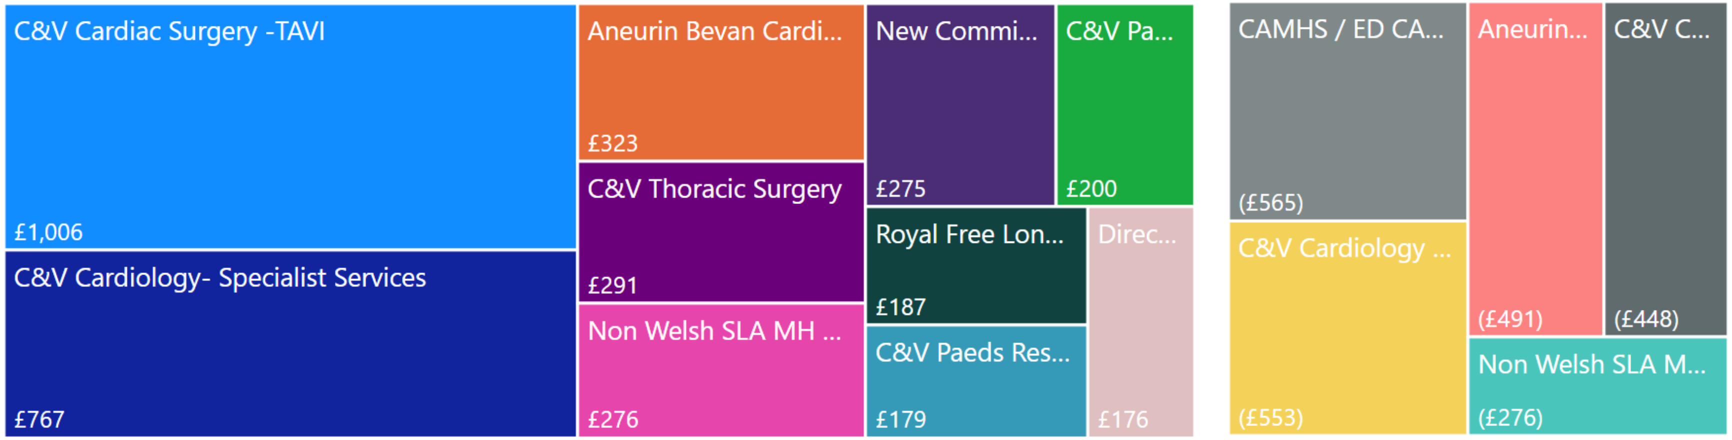
Top 15 Services by EOYF Variance £'000 - top 10 overspends and top 5 underspends

All



Comments/Notes:

Aneurin Bevan residents services come primarily from Cardiff & Vale UHB, NHS England and private providers in relation to Mental Health individual placements.

The year-end position of £436k underspent includes the following main components:

- TAVI activity through Cardiff & Vale - Projected over-activity from the provider. Forecast is to be discussed in detail in Month 03 following two months of high activity by provider.
- Aneurin Bevan Cardiology - YTD overperformance extrapolated - forecast to be reviewed for assurance.
- Savings across Mental Health - High Secure contract and Medium Secure placements

Please see the NWJCC risk-share tables for more details by individual lines.
